OF GLOBAL
PARTNERS

We're picking up the pace and
delivering real solutions.

RMI's work focuses on 4 key areas to accelerate net-zero aviation

SAF Supply

Expand high-integrity SAF production

SAFc Demand

Mobilize corporate and airline commitments for SAF procurement

Contrails

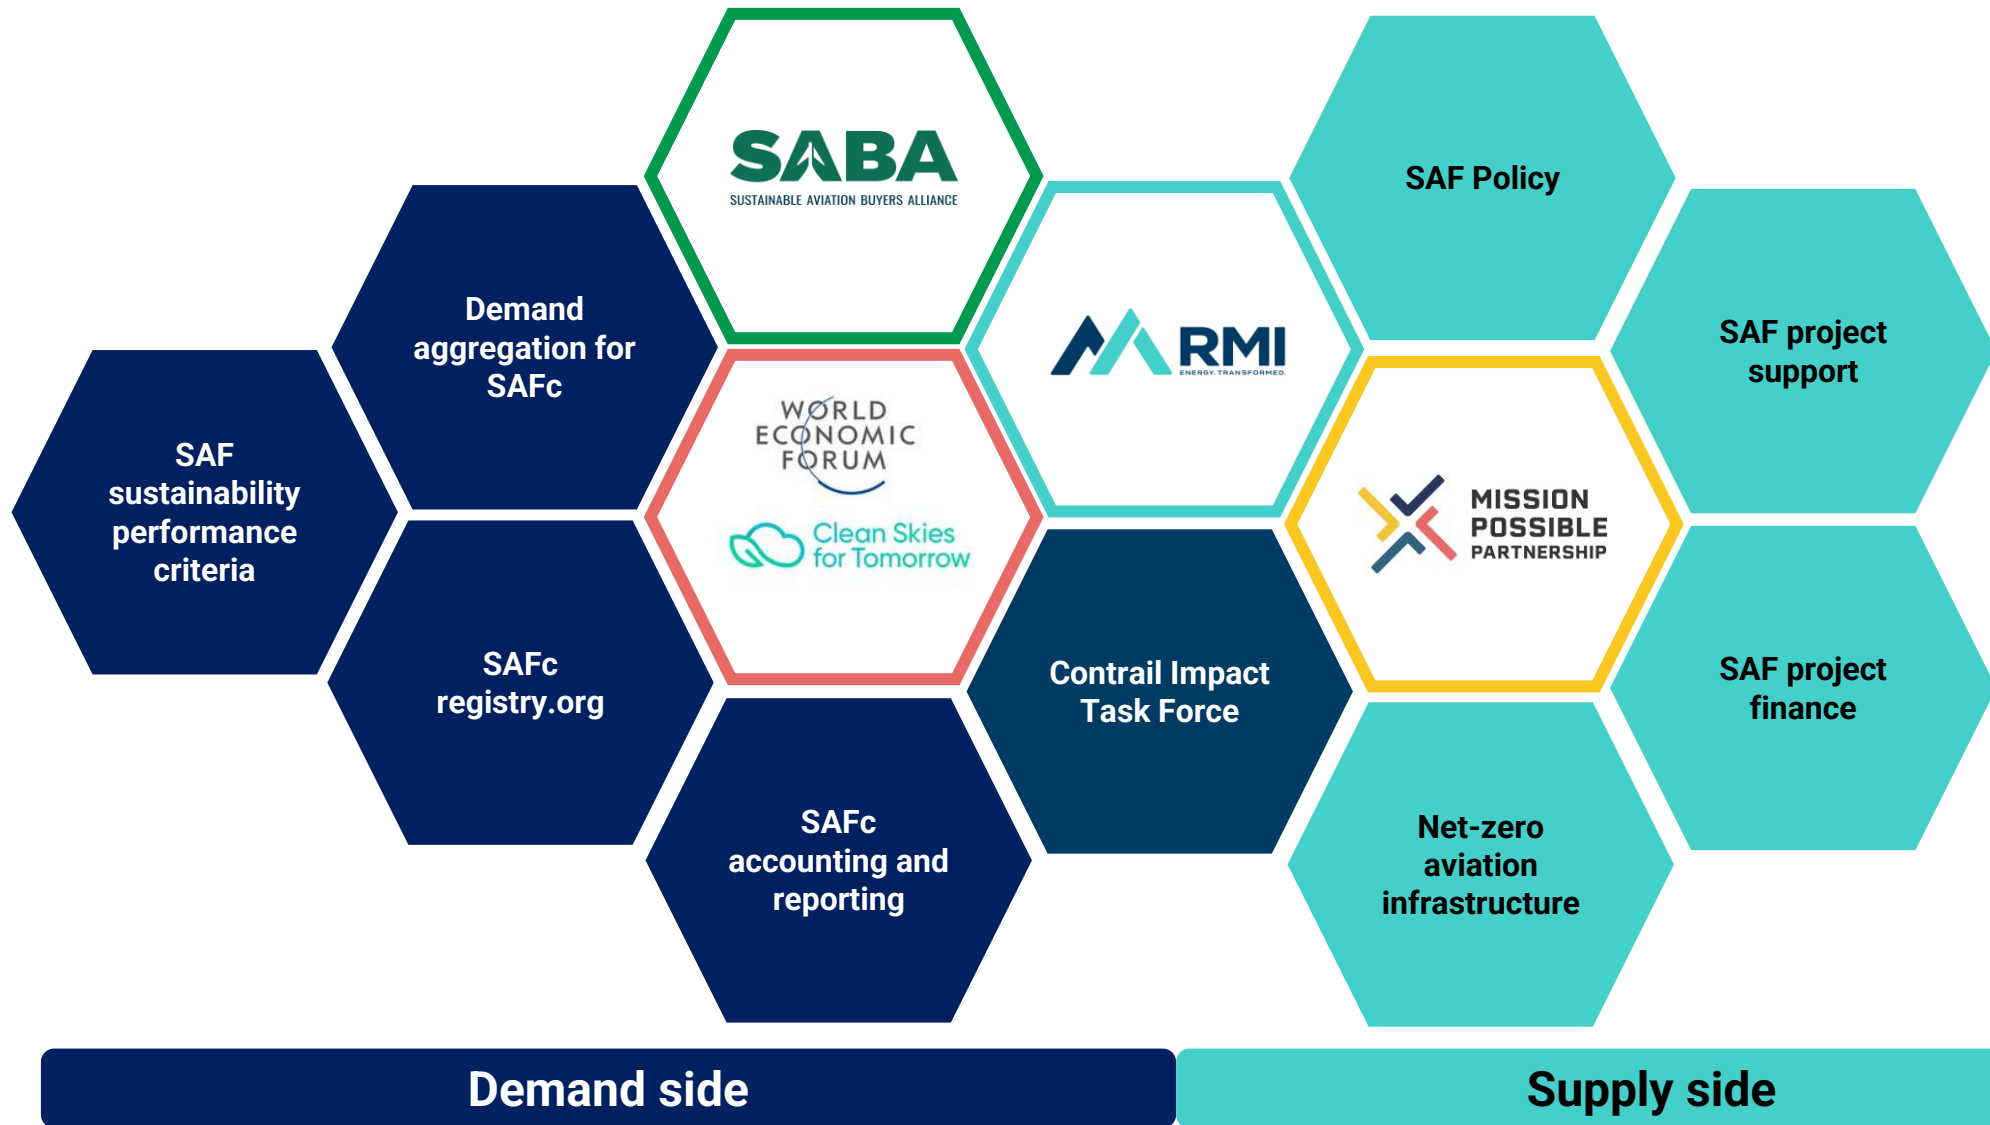

Address the full climate impact of aviation and advance solutions

Net-Zero Airports

Develop infrastructure for next-generation aircraft and fuels

RMI works across the value chain of aviation

SAFc Demand

A robust voluntary market for SAF certificates is crucial for scale

SABA
SUSTAINABLE AVIATION BUYERS ALLIANCE

SAF
REGISTRY

 Clean Skies
for Tomorrow
In collaboration with RMI
and PwC Netherlands

SABA
SUSTAINABLE AVIATION BUYERS ALLIANCE

SUSTAINABILITY FRAMEWORK

Supports buyers' investments in high integrity SAF and prevents unintended environmental consequences.

SAF CERTIFICATE REGISTRY

Allows buyers to make transparent emissions reduction claims related to their SAF investment.

ACCOUNTING GUIDANCE

Provides guidance on how to measure and report aviation emissions involving SAF.

COLLECTIVE PROCUREMENT

Competitive, collective procurement to standardize and simplify the procurement process for companies.

SABA Members:

A community of leaders in climate action

The SABA Multi-Year RFP brought together a diverse array of partners to channel close to \$200 million into the SAF market

SABA Collective SAFc Procurement

We are developing two new 2025 procurement opportunities for members

In 2025, SABA plans to run **separate procurement processes to serve two discrete Customer needs:**

- 1 Help SABA Customers purchase SAFc from qualifying providers on an ongoing basis
- 2 Execute forward-purchases of advanced SAF

Increase accessibility and short-term purchasing flexibility

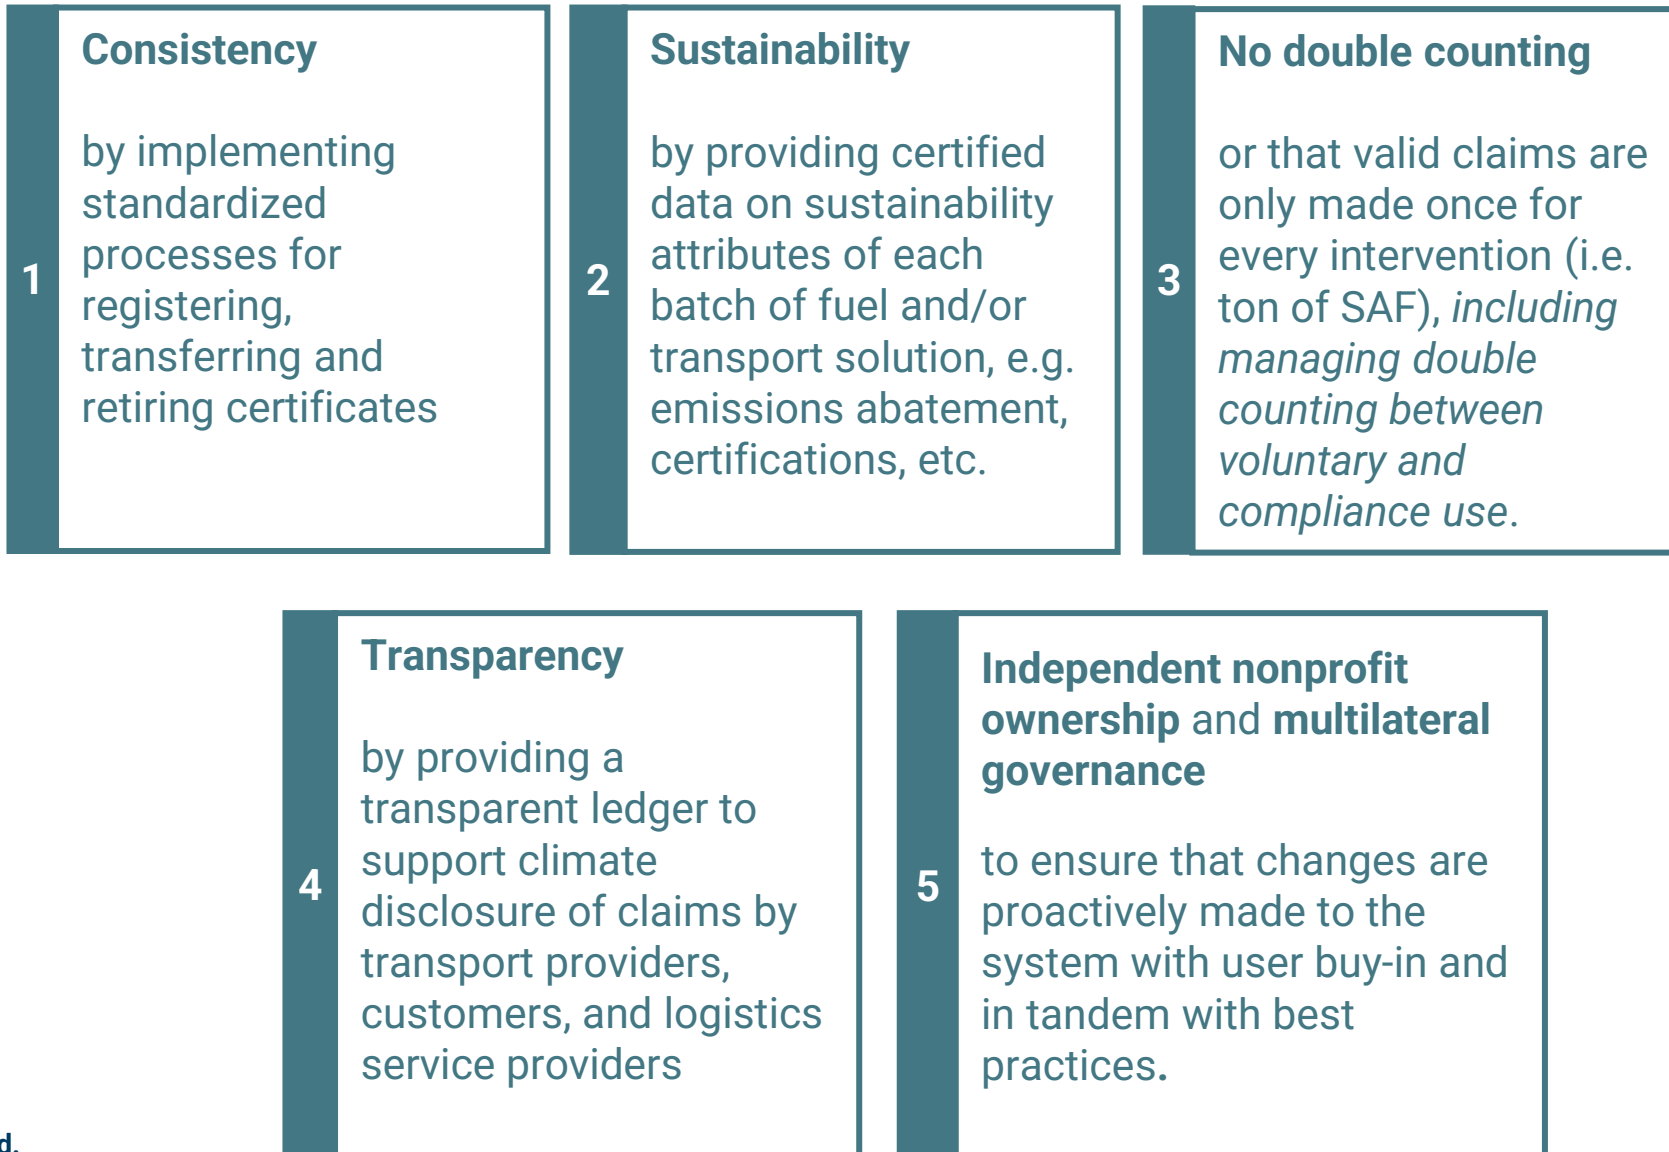

- Increase SAFc market liquidity through standardized, recurring process
- Shorten contracting timeline
- Fair and transparent pricing across participating Members

Support uptake and secure supply of next-generation fuels

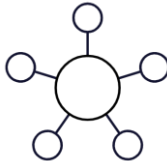

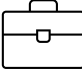

- Leverage corporate SAFc offtake to drive additional production capacity
- Send targeted demand signal
- Secure competitive pricing

The **SAF** **REGISTRY** is designed to enhance user trust by ensuring:

TheSAF[®]links procurement and disclosure

REGISTRY

		Outside of registry		Inside registry			Outside of registry
		Purchase contracts signed	Certified fuel produced	Issuance	Transfer	Retirement	Climate disclosure
