

## Operationalisation of the Single African Air Transport Market (SAATM) – Support to the African Civil Aviation Commission (AFCAC)

### EXPERT – ALFONSO MARTINEZ MATA

TEAM LEADER, ALG – Global Infrastructure Advisors

#### CURRICULUM VITAE

Alfonso is an Aviation Senior Consultant at ALG with more than five years of professional experience in transport consulting and aerospace domains.

His experience as an aviation consultant gives him in-depth knowledge of the industry, particularly air navigation and space industries from a technical, business, and strategic point of view at an international level.

At ALG, Alfonso has been involved in over 30 projects mostly focused on market strategy, cost-benefit analysis, performance and economic feasibility assessments, and business plan development.

Alfonso has collaborated with a wide variety of clients, including airlines, air navigation service providers, airport operators, international organisations, and funding entities in countries such as Saudi Arabia, France, Senegal, Rwanda, Ethiopia, Colombia, the Cayman Islands, the Philippines, Oman, and Spain, as well as with various European institutions (Eurocontrol, EU Commission, EASA).

#### Education

- **BSc in Aerospace Engineering** by the Polytechnic University of Madrid
- **MSc. in Aeronautical Engineering** by the Polytechnic University of Madrid
- **MSc in Astronautics and Space Engineering** by Cranfield University.

#### Project Activities

- International benchmark of SBAS programmes worldwide
- Identification and analysis of the African stakeholders potentially involved in the African SBAS
- Multicriteria analysis of the best potential configuration for African SBAS, considering centralization model, number of entities and ownership
- Support to the definition of the future organizational structure and governance of African SBAS, the service provision scheme, the economic viability analysis of African SBAS and the Implementation Roadmap
- Research on the current industrial landscape of the different SBAS subsystems (ground segment, space segment, data network) and the current capabilities of African stakeholders
- Participation in the SATNAV AFRICA JPO Steering Committee
- Support to document elaboration

This project is funded by the European Union and implemented by EASA
