# Projects per domain

# EU-CORSIA

## Africa & Caribbean

# Goals

States' abilities to monitor, report and verify (MRV) their civil aviation emissions are strengthened and meet international quality standards

States apply CORSIA methodology, meet its registry requirements and apply CORSIA as early as possible

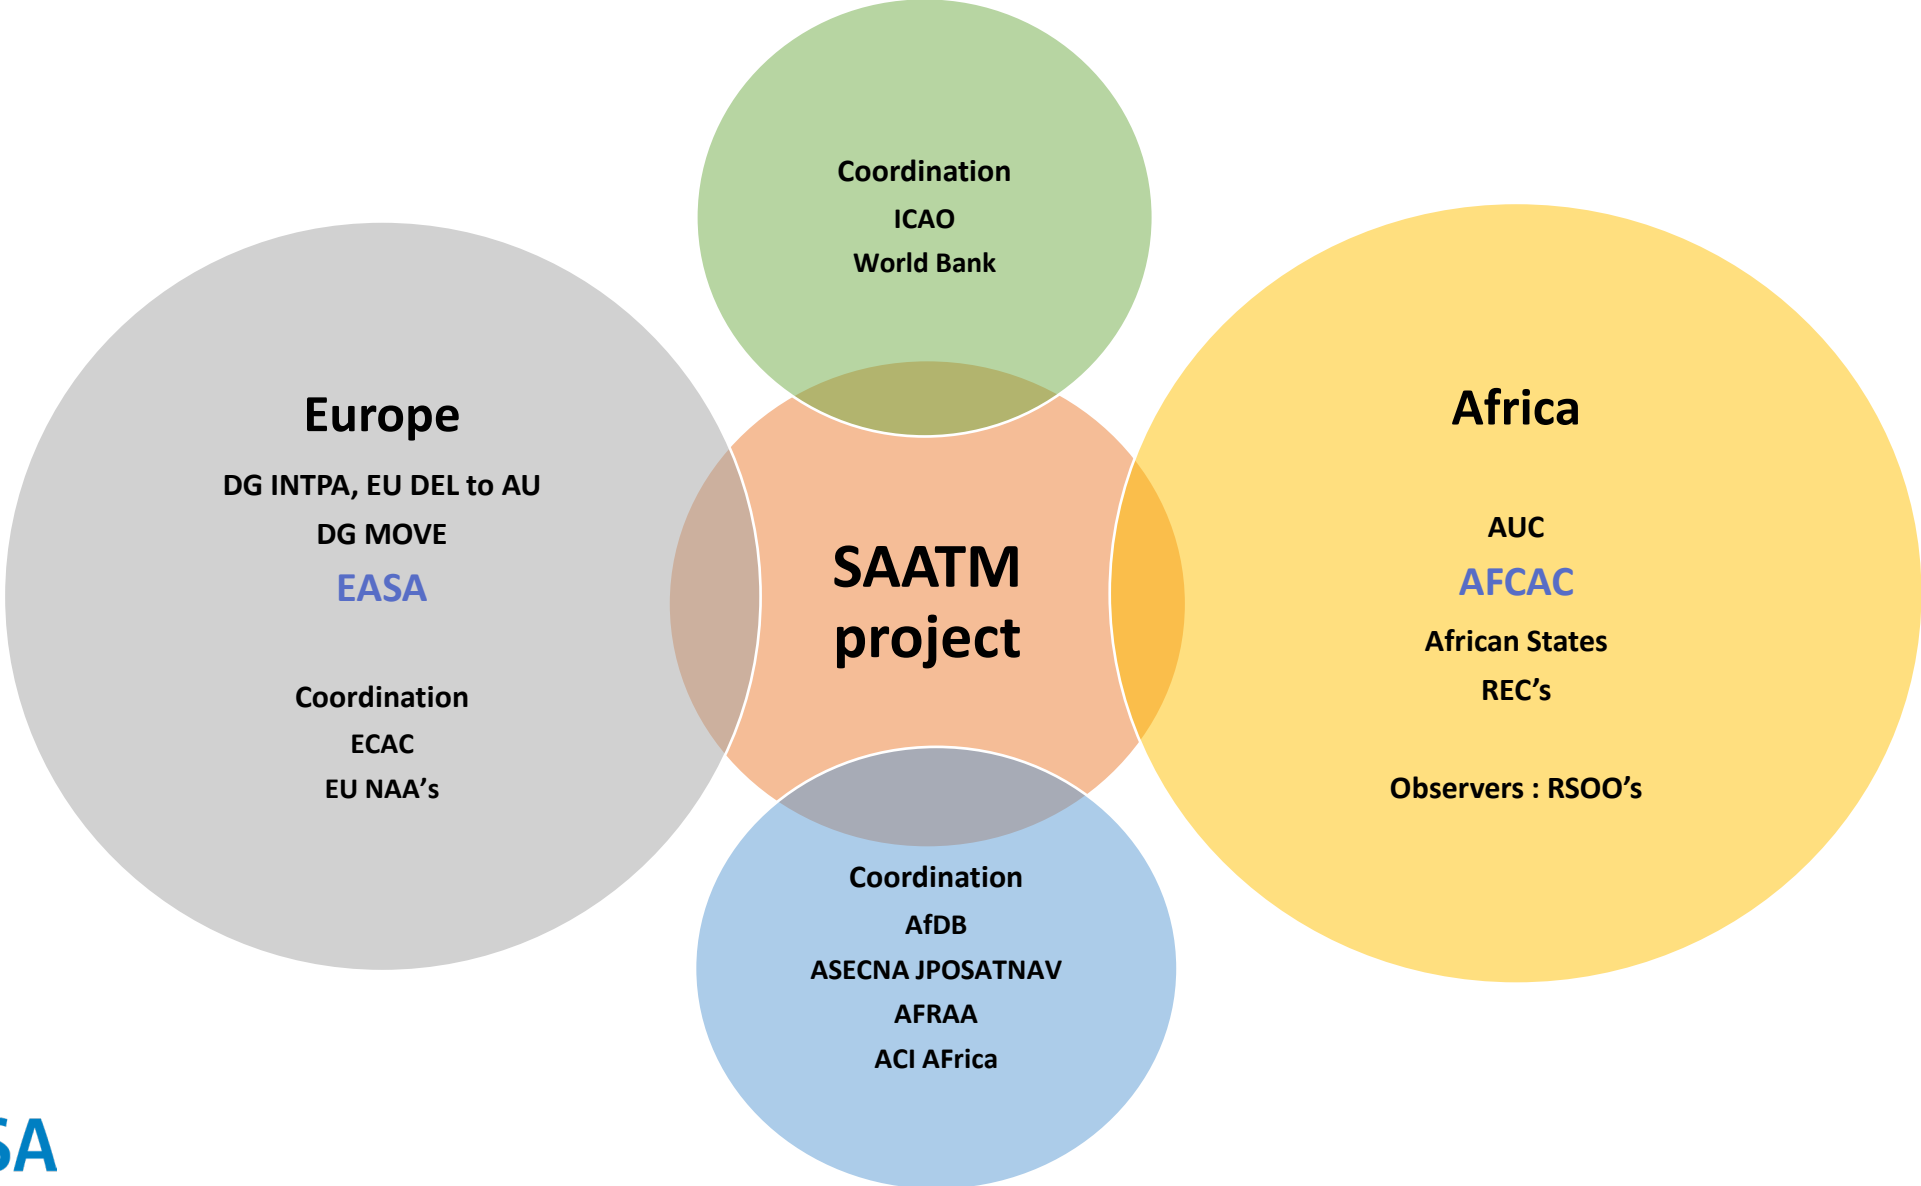

States' awareness, understanding and knowledge of aviation's climate impacts and of the policies to address them is improved

# Support to AFCAC Implementation of SAATM

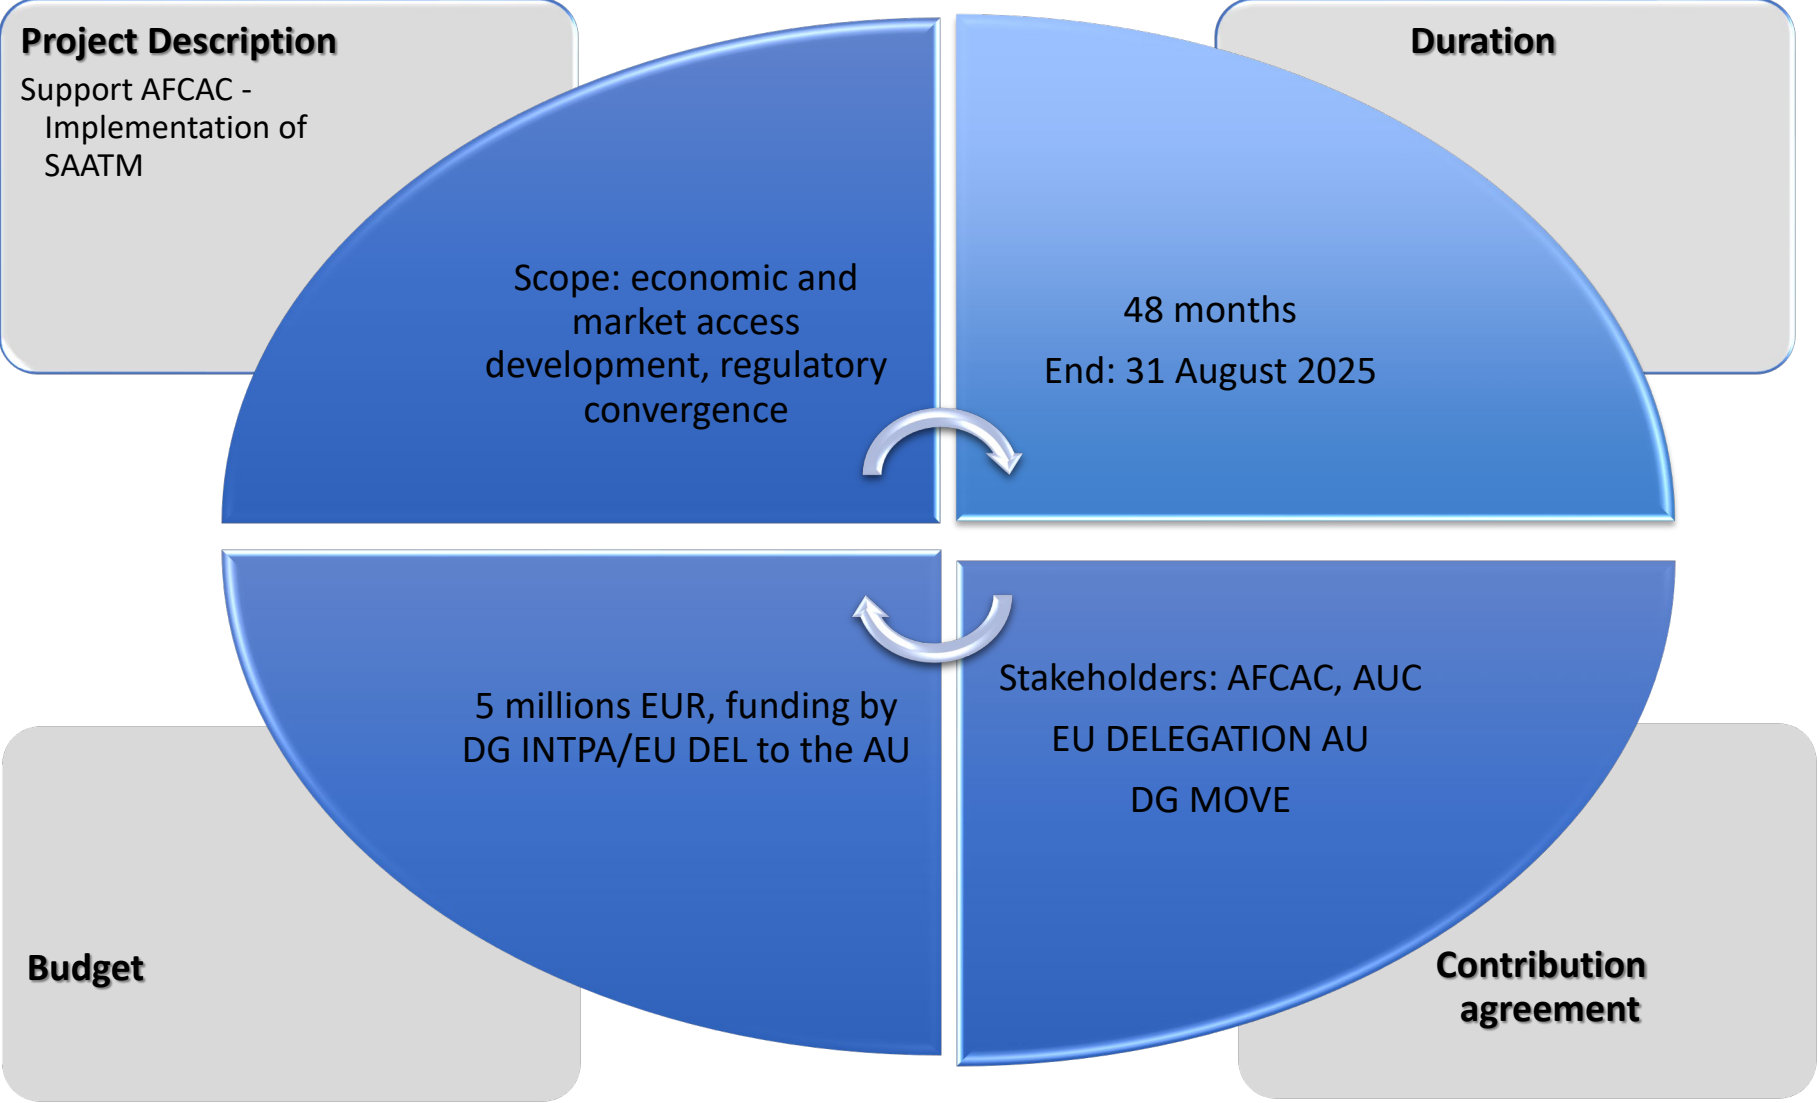

# Mapping of partners SAATM project

# Project - Key elements

# Results and type of activities

AFCAC EA capacity is increased

- Support monitoring of JPAP
